

# Monthly Transparency Report #22

The Infinity Hash Project

June 2025

## Introduction

This monthly transparency report gives a complete insight into the mining hardware, profit data, and energy expenses of the Infinity Hash project for the time from **2025-06-01** to **2025-06-30**.

## Profit overview

This month, we realized the following revenues and energy expenditures:

|                         |            |      |
|-------------------------|------------|------|
| <b>Generated total:</b> | 1.78826659 | BTC  |
| <b>Paid out profit:</b> | 0.14815143 | BTC  |
| <b>Reinvest wallet:</b> | 15666      | USDT |
| <b>Energy expenses:</b> | 157568     | USDT |

The current Reinvest and Electricity wallets are publicly available via BscScan (<https://bscscan.com>). You can view incoming Reinvest and Energy USDT transactions via the *Token Transfers* tab.

|                     |                                            |
|---------------------|--------------------------------------------|
| <b>Reinvest:</b>    | 0x78d19410436369d370EbA0f55163CD6D901d047c |
| <b>Electricity:</b> | 0x6F7829Ce4C0a1C4B5Bd5A669e94F666c22706d34 |

Any future changes to these wallets will be published in this report series.

## Hardware overview

### Electricity expenses and power consumption

Due to some miners being added during the month, a direct calculation of the average electricity cost per kWh may result in slightly lower numbers. The total power draw shown is the total consumption with all active miners online at the end of the month.

|                                |       |     |
|--------------------------------|-------|-----|
| <b>Total power draw:</b>       | 3709  | kW  |
| <b>Avg. draw per miner:</b>    | 3913  | W   |
| <b>Monthly cost per miner:</b> | 166   | USD |
| <b>Avg. cost per kWh:</b>      | 0.059 | USD |

Power usage data is collected directly from hardware.
